The simple announcement that Saturday next will see ANY of The Palace Clothing Co's, suits offered at \$10 each, has aroused an expectant stir among thousands of wearers.

But we are willing to close out EVERY suit at this price," said the Palace salesmanager, "for, with lightened tables we will feel disposed to put in the grandest fall stock we have ever carried.

Protest from Commissary Sergeant Regarding Delivery of Supplies Shows All is Not Yet Lovely.

(From a Staff Correspondent.) LINCOLN, Neb., July 1.—(Special.)—Several printers appeared before the State Printing board this afternoon to protest against the payment of the claim of Timothy Sedgwick of York for printing the blennial report of the State Labor bureau. They contended Mr. Sedgwick had stuffed the report and made a total of 115 unnecessary pages, for which he askeld the to put in a rate from Sioux City to Omaha state to pay \$1.35 a page. They desired on alcohol, spirits and whisky of 20.39 cents also to have the board stick Mr. Sedgwick per 100 pounds. This is a reduction of 10 for the penalty for not delivering the reports on time. The board deducted \$31.05 for the total bill of \$636.40. In answer to their charges Mr. Sedgwick produced s former report which he had been instructed to follow in the make-up of the new report, and in addition he produced page proofs liberally marked which he said had that he had followed the pattern sent him, had submitted page proofs and that if the bureau objected, the objections should

Grand Island Row Still On. Governor Shallenberger may have settled the row between the adjutant and the ommandant at the Soldiers' Home at Grand Island when he made his recent trip there, but it doesn't look like it. The Board of Purchase and Supplies which met teday to buy quarterly supplies for the various state institutions, received a letter from C. H. In his letter he village is not less than \$1,000,000. told the board that frequently supplies of hot room. He took the matter up with the commandant, he said, but got no satisfac tion, and he saked the board to help him out. "It will save money to the state," he argued if his recommendations were foilowed. He also wanted it to be understood by the contractors that no goods should be delivered unless ordered. One

subject. It is a great opportunity and I pray that I may rise to the occasion.

I wish you would express to the committee my keen appreciation and the great compliment they have paid me in entrust-ing to me the execution of this statue.
